ISBN 978-1-7375899-0-7

Jen Reichle

Jen is a Colorado author and illustrator who loves to garden beneath the moonlight. As the mother of a tiny adventurer, she writes books that teach children about the world around them without taking away from its magic. She uses simple rhymes that encourage language development and bright, imaginative illustrations that encourage readers to see the extraordinary behind everyday things. If you ask me, ordinary doesn't exist - only people who have forgotten how to see the wonder. Our task as parents is to nurture our children's natural-born connection and curiosity.
